### DETAILED ACTION

1. Claims 1-8 are pending.
2. The Preliminary Amendment filed October 24, 2005 has been entered and considered.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1-5 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
  - A. At claims 1-5, it is suggested that that the term "Process" should be amended to read as "A process".
  - B. At claims 1-5, it is suggested that that the phrase "characterized in that" should be amended to read as "wherein".
  - C. At claims 1-4, what is the reductive agent?
  - D. It is suggested that claim 8 should be amended to read as follows:

A process according to claim 1 wherein the starting material of the formula I is selected from a group consisting of (a) 5-(4-fluorophenyl)nicotinic acid morpholinamide or (b) 5-bromonicotinic acid morpholinamide.
5. Claims 6 and 7 provide for the use of the compound, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it

merely recites a use without any active, positive steps delimiting how this use is actually practiced.

6. Claims 6 and 7 are rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

The recitation of the term "use" renders the claims non-statutory.

7. The Information Disclosure Statement filed October 24, 2008 has been considered. The references alone or in combination forms do not teach nor suggest a process for preparing the instantly claimed compounds using the intermediate compounds as claimed. Accordingly, no rejections based upon prior art are made.
